## **Weigh-Piece count multi-tasking with WP95021 lift truck scale**

SAF Holland Co. an international leader of freight coupling systems (e.g. the Holland Hitch) was confronted with a dilemma of requiring a lift truck weigh system with a demanding list of requirements.

Weigh Point provided a leaf chain weigh system with piece counting capabilities that addressed all of the customer's issues.

- Low cost, low maintenance
- Capable of rough handling
- No downrate of truck capacity
- Accurate piece counting of tote production
- Easy to use
- Fast weighing and automatic accumulation

Mr. Phil Vinet at SAF Holland, Woodstock, Ontario thoroughly endorses, the Weigh Point system.

We enjoy helping select the best solutions so please call, it's our pleasure.
